### What Is a Supermoon?

A few times a year, the night sky is a little brighter than usual with the rising of a supermoon.

The moon's orbit around the Earth is in the shape of an oval, rather than a perfect circle. Furthermore, the Earth is not exactly in the middle of that orbit, so the moon is not always the same distance away. The farthest point in the moon's orbit is called the apogee, and the closest point—about 226,000 miles from Earth—is called the perigee.

The shape of the moon appears to change throughout each month based on where it is on its orbit around the Earth, as well as where the Earth is on its orbit around the sun. When the Earth is aligned perfectly between the sun and the moon, the moon resembles a full circle.

A supermoon is when a full moon is at perigee. It looks slightly larger than usual, though astronomers say only experienced skygazers can tell the difference. However, the moon's brightness, caused by the sun illuminating the surface, is noticeably higher.

You can see a supermoon this month on June 14.

### A Playlist for Pops

This Father's Day, press play on these sweet songs that celebrate the bond between dads and their children.

*"Color Him Father."* A top 10 hit for R&B group the WinStons, this upbeat track from 1969 sings the praises of a kind, hardworking stepfather to a widow's seven children.

*"Father and Son."* When listening to this 1970 Cat Stevens song, note when the singer-songwriter is singing in a lower register and when he goes up an octave. The deep verses are the father's side of the conversation, and the higher verses are the son's response.

*"Daddy's Hands."* Country singer Holly Dunn wrote this sweet tribute as a Father's Day gift for her dad. Released in 1986, it spent six months on the country charts and made Dunn a Nashville star.

*"I'm Already There."* This 2001 single by country group Lonestar resonated with listeners familiar with the message of a father away from home, especially those deployed in the military. The band later recorded a version that included phone calls from soldiers to their loved ones.

*"Dance With My Father."* Though he lost his father at age 7, Luther Vandross held on to memories of his parents happily dancing in their home. This sentimental ode reached No. 1 on the R&B charts in 2003.

## Nail Care Tips for Everyone

You use your hands every day, but how often do you think about the health of your fingernails? Whether you get pampered regularly with manicures or just want strong, clean nails, the essentials of nail care are important for everyone to know.

Washing your hands often keeps your body healthy in many ways, including your nails. Rather than using sharp tools to clean beneath them, try a nail brush with soft bristles.

Fingernails can get dry and brittle, just like hair and skin, so one of the main ways to keep them healthy is to moisturize

them often, especially after washing your hands. Gently massage the lotion or balm of your choice into your cuticles and nail beds.

Similar to regular haircuts, cutting your nails on a consistent basis can prevent splitting and breaking. Use nail scissors or clippers to trim them straight across, then round the corners with a nail file while moving the file in one direction, not back and forth.

## Gardeners Wanted

Our gardening club has been hard at work tending to our beautiful flowers and vegetable plants. We always need help weeding, watering, harvesting produce, and trimming blooms, so feel free to lend a hand—or a green thumb—anytime!

## Thanks to Our Maintenance Team

We call on them to fix up our community inside and out, and they help keep our facility running smoothly every day. Our maintenance staff works hard behind the scenes, but we'd like to put them front and center and tell them "Thank you for all you do!"
