Rehabilitation ... What We Offer

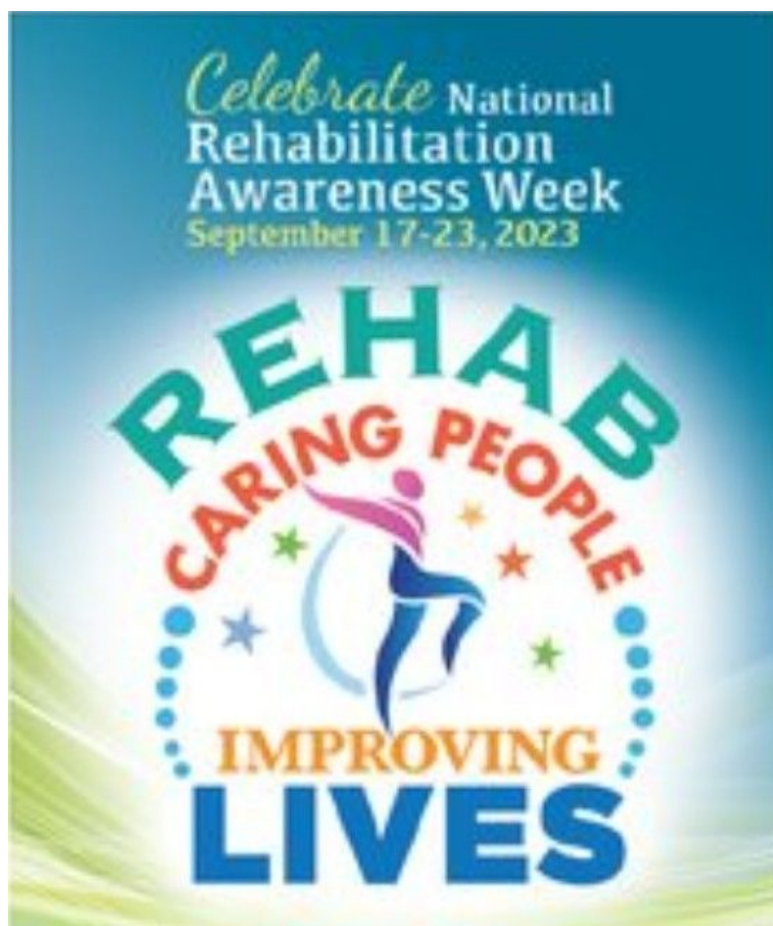

Our therapists have additional training on using enhanced therapy techniques in combination with modality equipment.

Our modality equipment includes equipment such as ultrasound electrotherapy, a motorized therapeutic exercise system called the Omnicycle, a shortwave diathermy system and much more. All consist of evidenced-based clinical programs and assist our patients with getting better faster.

Some of our programs consist of orthopedic rehab, stroke rehab, cardiac rehab, fall prevention & balance, pain management, continence improvement and wound management.

So whether you need inpatient short-term therapy or as a long term resident who needs a therapy program for increased strength & mobility, our dynamic team of therapists and assistants are here for you! Don't hesitate to contact Adreana Gatson, Director of Rehab, with any questions.

September 2023

Thank You to Our Therapists

Every day of the year, we value our therapists and therapy assistants. The week of Sept 17 - 23 we want to celebrate the rehabilitation professionals who all work together to make a difference in the lives of others. Our therapists have both a thorough knowledge of the human body and the right mix of patience and understanding.

thank you
for being an
essential part
of our team!

EMPLOYEE ANNIVERSARIES

Edmond Cleveland	24 Years
Jennifer Mallonee	5 Years
Christina Cox	1 Year
Omelhassan Shallo	1 Year
Gabrielle Felder	1 Year
Azai Fennell	1 Year

Opening Soon!

We'd Love To Have You Ask Us About Our Specialized Gem Program-Emeralds, Sapphires and Rubies

Riverside Nursing & Rehab will soon be pleased to unveil Sunshine Place, our dedicated female memory care neighborhood. This specialized community will provide 24 beds for ladies that are suffering from Alzheimer's or other types of dementia.

We will embrace the GEMS Model which is assessing what stage a person with dementia is in. This is key to providing the best quality of care. Our focus will be on seeing the individual as unique and capable, rather than on the memory loss.

At Sunshine Place, the Gemstone Journey is a progressive resident centered program providing an enhanced level of specialized care. Sunshine Place offers an intimate & secure ALL FEMALE neighborhood. We will feature family style dining, a home-like setting resembling your Grandma's place, a private courtyard to enjoy the outdoors and a continuity of staff to enhance a higher level of trust and security.
